ABOUT ME

With a solid foundation in both administrative roles and IT software development, I bring a practical approach to the workplace. I've excelled in managing administrative operations in fast-paced, dynamic office environments, consistently delivering results. My experience in leading small teams and ensuring tasks are completed to a high standard has honed my problem-solving skills. I take pride in mentoring team members to enhance overall efficiency while tackling challenges effectively.

WORK EXPERIENCE

2022 - Present   **LEAD WEB DEVELOPER**
Nettl of Scunthorpe

- Created WordPress websites from Figma or XD designs.
- Managed client website operations, covering support, maintenance, and business development.
- Supervised a small office team during the manager's absence.
- Handled account management for key clients.
- Contributed to marketing initiatives across social media, print, and email channels.

2021 - 2022   **CONTENT WRITER & EDITOR**
Networthpick

- Writer & Editor of over 15 articles in the Business and Technology section of the digital magazine NetworthPick (https://networthpick.com/author/nathaniel-james).
- Collaborated with colleagues to implement marketing growth strategies focusing on offering detailed analysis of future market trends.

2015- 2021   **WEB DEVELOPER / DATA ANALYSIS**
Freelance / Personal

- Developed bespoke websites for clients specialising in E-commerce, Dating, Social Networking and Marketing.
- Experimented with various machine learning and data analysis frameworks and tools. Specialising in Tensorflow, Jupyter Notebooks and Pandas.
